

Increasing Resilience to Climate Variability on Agricultural Land in Louisiana

Learn how climate variability is impacting Louisiana producers and opportunities for building resilience through adaptive management using resources from the USDA Southeast Climate Hub and partners. Discuss and share resources that will be helpful to your agricultural extension work.

Featured Speakers:

Barry Keim

Program Director

Southern Climate Impacts Planning Program

Ashlynn Amon

Climate Communications Resource Assistant

USDA Southeast Climate Hub

1.0 Crop Management CEU's Approved through the Certified Crop Adviser Program
